## May Web Design, LLC

Donna May, Website Designer

Happy Fall! It's not too early to think ahead to the holidays. Make sure your website is ready to meet the demands of the season and the new year.

I enjoy working with my clients to get to know them and their business or nonprofit so I can design the website they envision. We talk in detail about the work they do and how their website should look and function.

May Web Design, LLC creates professional websites that are affordable and enable clients to take ownership and update themselves. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new.

*Donna May*

# New Websites

Always a cause for celebration!

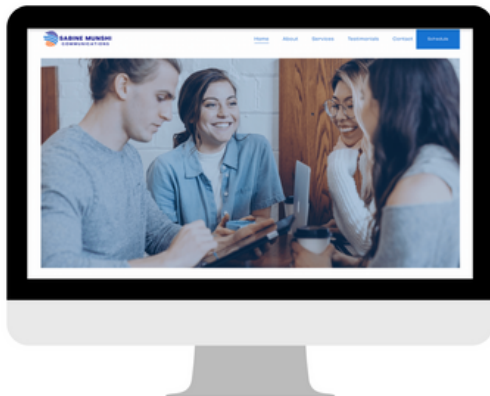

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

I have met some wonderful people who are starting their own business, have an existing thriving business, and people that organize nonprofits. I enjoy designing a website that they can take pride in and that will help in their current and future endeavors.

# Squarespace has a New Content Editor

Fluid Engine has replaced the original Classic Editor for Squarespace blocks within pages.

Squarespace has a new content editor for block sections within pages. The editor that we have been most comfortable with is now called Classic Editor and the new editor is called Fluid Engine. Fluid Engine brings a new flexible design grid system that gives you so many possibilities to create the website you envision.

Fluid Engine allows you to be more creative. It is a drag and drop grid system that looks like the formatting of Canva. I am so happy about the changes they have added:

- Flexibility of block placement
- Drag elements around the block
- Resize images by dragging corners
- Overlap images

Take a look at my blog to get more details:

## Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you already have a Squarespace website, take a look at the Learning and Community section for websites, forums, guides, and videos. Useful information.
