May Web Design, LLC

Donna May, Website Designer

Happy Winter and Happy New year! May Web Design, LLC celebrates two years on February 19.

It has been a wonderful two years of working with great people and hearing about wonderful new and existing businesses and nonprofit organizations. Speaking to so many people that are so passionate about their work is amazing in and of itself. Helping them to create a website that will be able to change and grow with their business or nonprofit is something I love to do.

May Web Design, LLC creates professional websites that are affordable and enable clients to take ownership and update themselves. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new.

Donna May

New Websites

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

New websites are always a cause for celebration

Congratulations!

ReGain-Control is an Integrated Pest Control Company that handles all of your residential and commercial pest control needs. They service the Maryland area and offer monthly management plans to suit your needs.

Squarespace has a new feature

I have been waiting and hoping for something like this within the Squarespace platform!

Blocks are sections of a website page. You may move these blocks throughout the page but up until recently you could not move to other pages within the same website.

This new release of saved sections makes it possible to create a block on one page of a website, save it, and use it on another page within the same website.

These saved sections are also independent sections meaning once saved you can use that section on a different page within the website and make changes. These changes will not affect the original saved section.

As soon as I saw this release, I tried it, and LOVE it.

Take a look at my blog to get more details:

Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you already have a Squarespace website, take a look at the Learning and Community section for websites, forums, guides, and videos. Useful information.
