SQUARESPACE APP

Website Launches - Page 2

May Web Design, LLC

Donna May - Website Designer

I'm excited to send out my first newsletter to current, past, and prospective clients plus friends and family. I love working with people to create professional websites that they can learn to easily update and keep new and fresh. I am honored when chosen to create a website for a small business or a nonprofit organization.

May Web Design creates professional websites that are affordable and enable clients to take ownership and update themselves. Most website work is created in Squarespace, but I have created websites on other platforms.

Thank you for reading and being part of the journey...

Donna May

Squarespace APP

For IOS and Android devices

Squarespace is constantly updating but not so much that it's hard to learn. A little here and a little there. You don't feel overwhelmed.

Squarespace used to have two Apps but has consolidated them into one. If you have a Squarespace website, it is very handy to have access to the App as well. With the App you can make quick changes to your website, manage and add inventory, and look at your website analytics.

Check out my latest blog post.

New website launches are always a cause for celebration

My goal for May Web Design, LLC was four websites the first year. So far, three websites have launched since May and one other website will be launching soon!

- Thomas and Kammar | Boutique Clothing
- Little Corner Learning Academy | Preschool
- Kids-4-K9's | Teaching Humane Education Programs

Magazine Cover

I was thrilled to have my family and my new business featured in a local magazine.

The writer wrote a lovely article, and the pictures were amazing. I think it was the first time we all dressed up and went somewhere since the Covid shutdowns. I'm thrilled to say that I did purchase some pictures and already have a Christmas card in mind.

Take a look at the article

Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you are part of Squarespace websites take a look at the Learning and Community section for websites, forums, guides, and videos. Great information.
