May Web Design, LLC

Donna May - Website Designer

It's been a busy three months since my first newsletter! I love working with people to create professional websites that they can learn to easily update and keep new and fresh. I am honored when chosen to create a website for a small business or a nonprofit organization. I'm also getting used to using my picture on business materials and on my website.

May Web Design creates professional websites that are affordable and enable clients to take ownership and update themselves. Most website work is created in Squarespace, but I have created websites on other platforms.

Thank you for reading and enjoy the holiday season.

Donna May

Squarespace Video

For IOS devices

I am so excited about Squarespace's introduction of Video Studio! Most importantly, it is FREE with your Squarespace website. It's amazing how fast it takes and how easy it is to produce a professional video. It's fun too!

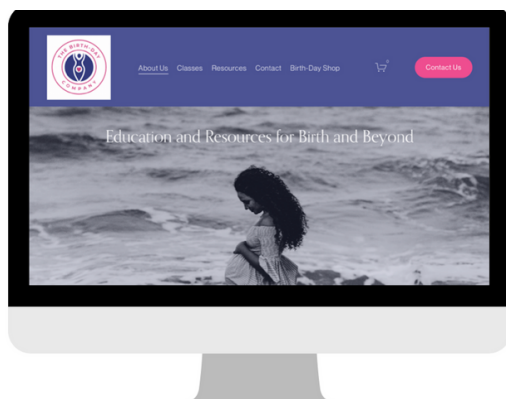

Video Studio allows you to create videos highlighting your website. It pulls in your brand image, so your colors and fonts are automatically displayed. You can choose to speak and be shown on the video or choose a voiceover to automatically play and display your own pictures. There is even a large library of music to play through your video if you choose.

Check out my latest blog post about Video Studio:

New websites are always a cause for celebration

I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

My business goals for my first year have been met and I'm so excited. At this time I have three other websites in various stages of development. I can't wait to share them, as well.

I have met some wonderful people who are starting their own business, have an existing thriving business, and people that organize nonprofits. I enjoy designing a website that they can take pride in and that will help in their current and future endeavors.

Magazine Cover

I was thrilled to have my family and my new business featured in a local magazine earlier this year. I shared this in my first newsletter but wanted to include again.

The writer wrote a lovely article, and the pictures were amazing. I think it was the first time we all dressed up and went somewhere since Covid began. I'm thrilled to say that I did purchase some pictures and already received my holiday cards.

Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you already have a Squarespace website take a look at the Learning and Community section for websites, forums, guides, and videos. Great information.
