## May Web Design, LLC

Donna May, Website Designer

Happy Summer! No matter the season your business or nonprofit needs to keep running. Is your website working for you? Make sure your website can change with your growing business or nonprofit organization.

May Web Design, LLC creates professional websites that are affordable and enable clients to take ownership and update themselves. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new. My business model is simple. I create the website you envision and give you the tools to update your website.

Websites can change as often as you like. Make sure to update your pictures, add some video, or freshen up your information. When a visitor comes to your website make sure they can access all the information they need and enjoy their time navigating the website.

Building websites and adding updates to prior websites is fun. I enjoy working with new and past clients on different projects.

## Shape Blocks

Shape blocks enhance your website design by adding different shapes in various colors.

I'm trying to find new and different ways to use these shapes. I love that they are now an option. The shapes can be resized, and the color may be changed. You can have images and text overlay the shape. This is great if you want to use the shape as a frame behind the picture.

## Squarespace Basics

---

## Squarespace is always adding new features

## Text Highlight

Text Highlight allows you to add additional emphasis to your text, sentences, and whole paragraphs.

This is a feature I have been waiting for - Text Highlight! This means you can now underline, cross out, circle, and even animate text.

I would have loved to have this feature for years, but I have just been using workarounds waiting and hoping this would finally come as a true feature. As always, Squarespace delivered and added even more than I could imagine.

New websites are always a cause for celebration

## New Website

Always a cause for celebration!

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

I have met some wonderful people who are starting their own business, have an existing thriving business, and people that organize nonprofits. I enjoy designing a website that they can take pride in and that will help in their current and future endeavors.

## Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you already have a Squarespace website, take a look at the Learning and Community section for websites, forums, guides, and videos. Useful information.
