May Web Design, LLC

Donna May, Website Designer

Happy Spring! It is a time for new beginnings and sometimes a time to start something new or update what you have. Make sure your website can change with your growing business or nonprofit organization.

May Web Design, LLC creates professional websites that are affordable and enable clients to take ownership and update themselves. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new. My business model is simple. I create the website you envision and give you the tools to update your website.

This year I have been working on updates to websites that I have already designed. I've made large changes and just updated with further information. A website can change as often as you like.

Donna May

Section Dividers

Giving you the ability to change straight lines into shapes.

I love how often Squarespace adds new features. They are constantly updating for the good of the websites.

Sections Dividers are a fun new feature to change the bottom of a section from a straight line to a different shape. There are a few different shapes to select at this time and you can even customize the width, height, and alignment. There are so many new possibilities on a webpage.

Squarespace is always adding new features

Asset Library

Allowing you to update pictures and sort them in a library.

I love how often Squarespace adds new features. When a client has a specific request, I always stop to check if anything has changed. They are constantly updating for the good of the websites.

This new Asset Library feature is great. It is listed on the Home Menu of all Squarespace websites. You can upload a picture or many pictures at once. You can even add folders to help sort the images.

Before Asset Library you would have to update images on the page and section that you would be using those images and from there you could use the images elsewhere. But now you can upload an assortment of pictures so that when you need them, they are there for you to use.

New websites are always a cause for celebration

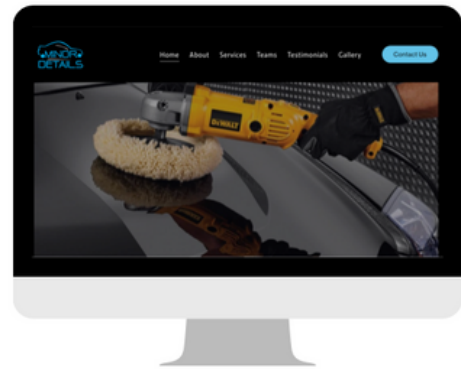

New Website

Always a cause for celebration!

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

I have met some wonderful people who are starting their own business, have an existing thriving business, and people that organize nonprofits. I enjoy designing a website that they can take pride in and that will help in their current and future endeavors.

Minor Details Dealer Services works directly with dealerships. Within each dealership Minor Details will clean and fit a dedicated work area. They offer full interior and exterior detailing while maintaining the dealership's inventory so the dealership can focus on their own marketing and sales.

Minor Details is committed to making the detail process a smooth process for the customer and the dealership. They have been a vital partner to many dealerships in the metropolitan Baltimore area since 2012.

Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you already have a Squarespace website, take a look at the Learning and Community section for websites, forums, guides, and videos. Useful information.
