## May Web Design, LLC

Donna May , Website Designer

Happy New Year! May Web Design, LLC turns ONE on February 19. It's been a wonderful year of meeting great people and starting a new business.

I enjoy working with my clients to get to know them and their business or nonprofit so I can design the website they envision. We talk in detail about their work and how a website needs to function. Once the website has been launched I teach my clients how to update their website.

May Web Design, LLC creates professional websites that are affordable and enable clients to take ownership and update themselves. Thank you for reading and taking part in the journey.

# New Websites

Always a cause for celebration!

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

I have met some wonderful people who are starting their own business, have an existing thriving business, and people that organize nonprofits. I enjoy designing a website that they can take pride in and that will help in their current and future endeavors.

## New websites are always a cause for celebration

The Rotary Club of Hunt Valley is comprised of business and professional leaders from northern Baltimore County. As part of the global efforts of Rotary International, they seek at all times to serve and improve our community through charitable endeavors, regular meetings and community service projects.

Guests and prospective members are always welcome to join.

# Image Shapes

Not just squares and circles anymore.

I am so excited about Squarespace's introduction of Image Shapes! There were not many options when adding a picture to your website but now you can change the shape of your picture. You can upload a picture and drop it in one of many image shapes.

I love customizing each picture. This is a great tool located in the design process. It's fun to see how the shape of a picture changes the look of a web page.

Check out my latest blog post about Image Shapes, Squarespace Basics: Image Shapes

## Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. I can move your website into a platform that looks fresh and vibrant. If you don't have a website, we can start from scratch to build what you envision.

If you already have a Squarespace website take a look at the Learning and Community section for websites, forums, guides, and videos. Great information. <https://learning.squarespace.com>
