How do I get started with a website in 2024?

Donna May, Website Designer

Happy 2024! I hope this newsletter finds you well and working on your 2024 goals for the year.

Websites should always change. Adding new pictures and videos help to show people what you are doing as a business or nonprofit organization. Wherever your business or organization takes you, your website should easily grow and change to meet those needs.

May Web Design, LLC creates professional websites that are affordable and enable clients to take ownership and update themselves. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new. My business model is simple: I create the website you envision and give you the tools to update your website.

Website launches are exciting, but I also update websites and create forms for different organizations and small businesses. I enjoy meeting new people and learning about what they do.

New websites are always a cause
for celebration

New Websites

Always a cause for celebration!

I am honored when chosen to design a website for a client. I strive to give my clients the website they envision. We discuss in detail what they need and want in a website. I build their dream in a way that they can easily update and build on to keep the website fresh and new for their clients and members.

I have met some wonderful people who are starting their own business, have an existing thriving business, and people that organize nonprofits. I enjoy designing a website that they can take pride in and that will help in their current and future endeavors.

Congratulations to The Doc Boiesoneau Northern CT Chapter of the National Football Foundation on launching their new website! This is my fourth National Football Foundation chapter website. It's a great organization.

The Central Indiana Chapter will be celebrating their 62nd anniversary in 2024. The website will allow them to showcase their awards and scholarships.

Their mission, "To inspire young people to excellence; holding up the greatest players and coaches in the history of the game as role models and enshrining them and their achievements in the College Football Hall of Fame."

Website Basics

How do I get started with a website in 2024?

Just Start.

Wherever your business or organization takes you, your website should easily grow and change to meet those needs.

Imagine. Innovate. Invigorate.

Dream and Grow your vision for your business or nonprofit organization website.

Many websites are outdated or simply cannot be updated easily. New website design may be overwhelming. The most important part of my business is empowering website owners to update their website themselves, always keeping it fresh and new.
